

The 7th I-LISS 2023 Presentation and participation guidelines

Oral presentations

- 15 minutes, oral presentation + 5 minutes Q&A.

In case you present onsite, you should present **in person**. Even if you present online, you are expected to make the presentation **in real-time** and be available for Q&A following the presentation.

In case you present online, you should access the Zoom URL for your session **at least 15 minutes** before the session and use the same name as your paper.

Technical support teams will identify presenters based on your name. If some disruptions happen in your presentation, please contact our technical team members via the chat box of Zoom.

We will use the submitted video link just in case of network problems. For example, suppose something wrong happens 5 minutes and 20 seconds after your presentation starts. In that case, technical team members will play your pre-recorded video setting the starting time to 5 minutes and 20 seconds instead of a live presentation.

Poster exhibition

- You should bring printed slides or an A0 poster, you can put those on the panel.

Zoom instructions for online participants

General: To ensure the security of conference sessions, passwords for Zoom meetings will be sent to you **ONE DAY** before the conference.

You can access all conference sessions through the links posted on the conference program sections on I-LISS2023
